SERVICE CONTRACT

Tharo Service Contracts are available for 12 month periods. They can be purchased when the printers are originally purchased or at any time during the standard factory warranty. The extended warranty period will begin when the factory warranty expires. Service contracts also may be purchased for units no longer under factory warranty. Inspection is required prior to the issue of a Service Contract if the warranty is expired.

The original printer warranty period is for 2 years from the date of shipment by Tharo. This warranty does not cover equipment or parts that have been misused, altered, neglected, handled carelessly or used for purposes other than those for which they were manufactured. This warranty also does not cover loss, damage resulting from accidents or damage resulting from unauthorized service.

The printhead warranty period is 2 years or 2 million linear inches of use, whichever comes first. This warranty does not cover printheads that have been misused, altered, neglected, handled carelessly or damaged due to improper cleaning or unauthorized repairs.

The **Service Contract** covers all labor, material and surface transportation charges to return the product to customers within the 48 contiguous United States and District of Columbia. All shipping costs, customs clearances and other related charges outside this area are not covered by these Service Contracts. All prices are subject to change and are reflective of the cost of replacement parts.

Shipping F.O.B. Brunswick, Ohio. Prices subject to change without notice.
